

## **REPORT**

In October 2008, Friends of the Adolescent Club was registered as an NGO in Ghana (Local NGO).

We have since been operating without sponsors.

Our mission on health focuses on “Talk shows” and defraying the cost of health care for very poor adolescents who can’t afford it.

In December 2008 there was a “Talk Show” on “Adolescent Reproductive Health” where Resource personnel from the Health Sector gave detailed delivery on the topic.

In Education FOTA Club is sponsoring students in S.H.S, due to financial problems. 7(seven) students are the only ones benefiting, though there are hundreds of them on the waiting list.

Two adolescents are also going through vocational training. (Dress making).
